## VERA CHAIR

Dimensions: 22W X 23D X 29.75H, 18SH

Materials: COM/COL  
Oak or Walnut

Designed by: Bridgette Buckley

Description: The Vera Chair is inspired by the designs of the great Danish Masters and given a fresh update. The contoured tight upholstery, dynamic lines and sinuous woodwork along with its extraordinary comfort makes it a dining chair well suited for lingering dinners. It serves as a wonderful desk or pull up chair as well. Vera means “true, real, genuine”, and this piece adds a truly special element to any interior.
